## Transmissions

### TKX SHIFTER

### INSTALLATION INSTRUCTIONS

#### TO INSTALL STX SHIFTER ASSEMBLY:

1. Remove the 6 bolts attaching the original stock shifter assembly to transmission.

2. Thoroughly clean shifter mounting flange on the transmission of old gasket.
3. Install new gasket onto the shift mounting surface.

4. Install shifter reusing the 6 bolts from the old shifter. Tighten bolts to 6-11 lb-ft torque.
